- Farm Works Online Training Schedule

Demo Connected Farm and Receive a Free Gift

Trimble will be demonstrating the latest Connected Farm™ innovations at the upcoming farm shows. Stop by our booth to learn why our data management solutions are better than the rest. To show our appreciation for your time, you'll take home a free gift. We'll also provide you up to 200 acres of free Connected Farm PurePixel™ solution and RainWave® Contour Map services (\$400 value) when setting up your account at the booth. This way you can analyze your crop health imagery from 2014 and track precise rainfall maps during the upcoming growing season.

February 10–12

World Ag Expo
Tulare, CA
Booth# 3116, 3117

February 11–14

National Farm Machinery Show
Louisville, KY
Booth# 4028

February 26–28

Commodity Classic
Phoenix, AZ
Booth# 801

New and Improved Commodities Widget

Connected Farm™ Dashboard now includes a powerful commodities widget that can be used to monitor board of trade prices along with local cash bid prices.

- Powered by DTN/The Progressive Farmer and is free of charge
- View futures market commodity prices updated every 10 minutes as well as a graph showing the days results
- Enter your zip code to view local cash bid prices

Request Access to Connected Farm Advisor

Connected Farm™ Advisor is a solution that links the grower and his trusted advisor together in one web platform where field data is easily shared. Advisor is able to view the grower's field information and create timely variable rate nutrient recommendations that are immediately shared back with the grower or sent on to the applicator.

- Assign rates to prescription maps by selecting from numerous pre-built formulas
- Select from a variety of pre-built labs for importing soil test data
- Pay as you go—no contracts or minimum purchase size requirement

Farm Works Version 2015.02

We've added a few more surprises to the most recent version of Farm Works Software®. Some of these enhancements include:

- **Improved VRA Map for Print** – when printing a VRA map the summary now includes the area applied (which excludes areas with zero rates), and the minimum, average, and maximum rate applied
- **Support for Importing Trimble PurePixel & SIS data** – added new import functionality for reading PurePixel™ or Soil Information System™ (SIS) solutions data via Read Job Data
- **Support for 2014 Federal Tax Forms** (W-2, W-3, 1099-Misc and 1096)
