April 2016 Edition

APRIL 14, 2016

In this issue:

- Farm Works V2016 Now Available
- New Kenai Rugged Tablet Computer
- Updates to Connected Farm Fleet
- Plan Your Corn Maze in 2016
- Farm Works Online Training Schedule

Farm Works V2016 Now Available

Check out the latest release of Farm Works Software® solutions. Version 2016 offers plenty of enhancements such as:

- **Map Booklet Printing** – Print multi-page map reports in a booklet layout for customers, landlords, or trusted advisors.
- **Default Legends for VRA Maps** – Create a default legend for a supply used for VRA and coverage maps.
- **Additional Loan Details** – Enter more details for loans, including interest rate, interest type, start and end date, payment, frequency, and notes.
- **Updated Invoicing** – Create a customized description; enter quantity and unit of measure that can be used for invoicing custom work.
- **Easy Depreciation and Fixed Asset Adjustments** – Make adjustments on depreciation and fixed asset balances, including entering journal entries from accountants.

New Kenai Rugged Tablet Computer

The Kenai tablet is ideal for agronomists and farmers who need a rugged large-screen tablet for outside agriculture applications. The built-in GPS is ideal for soil sampling, basic mapping and scouting tasks when using the Farm Works™ Mobile software. Its fully rugged design is tough enough to last for years, even in harsh conditions. In addition to standard USB ports, it comes with a built-in RS 232 Serial Port that allows it to connect to most agricultural GPS receivers, rate controllers, and sensors on the market today.

Updates to Connected Farm Fleet

We've made significant improvements to Connected Farm™ Fleet in recent months. Connected Farm Fleet allows you to track real-time locations of each vehicle, historical bread crumbs, utilization and more. Some of these enhancements include:

- Added fuel level gauge on vehicles list and individual vehicle pages (if fuel level CAN data is reported).
- Ability to customize and rearrange the data type columns on the vehicles page.
- Ability to export sensor data to an Excel format.

Plan Your Corn Maze in 2016

Utilizing GPS technology to design and cut your own corn maze can be fun and profitable. Where do you start? Farm Works offers the perfect combination of software and mobile solutions to create your own maze. This solution can handle everything from simple designs to more elaborate mazes that people will be talking about for years.
