## AG BUSINESS & PRECISION AG

**D**o your students have a grasp on the 'real world'? What better way to make it real than to teach a program that farmers, cooperatives, and consultants use to manage their businesses?

*Using Farm Works™ in the classroom exposes students to the changing world of agriculture. Students will learn how to use software for farm business management and precision agriculture. The skills you provide in the classroom will follow your students in many parts of the ag industry; it doesn't have to be just farming.*

*It all starts with a complete solution provided by Farm Works. Simply use the Teacher Guide and Student Workbook to involve your students in the details of running a business, whether they have a farm background or not. Everything is on one easy-to-use Educational CD.*
